

APPEALS AGAINST EXAMINATION RESULTS

In the event that a Learner wishes to appeal against an examination result, the Learner must appeal within five working days of receipt of the results to the Centre.

The appeal in the first instance should be considered by the Centre. If the Centre supports the appeal, they should submit in writing the cause for the appeal and details of their support to the CIBTAC Account Executive. This is to be received within ten working days of the published results. There is a fee per result appealed.

Please complete this form and return to enquiries@cibtac.com.
